IowaDNR

The Iowa Department of Natural Resources

November 2006 - 1 -

Leading Iowans
in caring for
our natural resources

Issued Permit Numbers

- Permit Stuff
 - LT 22 days/permit for 2009
 - 1748 total permits vs. 1720 12 mos.
 - 576 projects
 - 25 PSD Projects Issued

CP Updates

- “General” permit for 6B (Gasoline bulk plants) – enf. limit for < 20,000 gal.
- Registrations for 6X and 6H
- Application forms reviewed in January, minor changes

Other Stuff

- We developed a registration form for new engines that are less than 400 hp and are subject to a NSPS (4I or 4J). This also involved modifying the 400 hp exemption for engines.
- Grain Elevator Permitting done
- Feed Mill Permitting, mostly done

Small Unit Exemption

- Beginning January, must have the JD on site at the time of an inspection to qualify for the SUE
- If the unit is subject to a NESHAPs, then the SUE is not available.

CO2 Tailoring Rule

- Proposed Light-Duty Vehicle GHG and CAFÉ Standards (October 23, 2009)
- <http://www.epa.gov/fedrgstr/EPA-AIR/2009/October/Day-27/a24163.pdf>
- What does this mean (if implemented as proposed)?
 - A major source CO₂e increase of 10,000 TPY triggers PSD (and other pollutants too)
 - A 25,000 CO₂e TPY increase is major (and other pollutants too)
- If not implemented, then **any** increase is major

Nebraska Toxics Notebook

- www.DEQ.State.NE.US
 - Sort by Subpart A, B.....AAAAAAA
 - Industry Category: ie. Ethanol Plants
 - Area Source Regulations
- Great Reference, quick source of regulations
